

Student Advisory Council

Meeting Notes

Thursday, December 12, 2019

2:00 PM

Attendance	Michael Brand Dallas Saphire Chris Izaiah Steven
Opening	Shared with students the reason for our meeting. Shared that our purpose is to try to come up with ideas and activities that will encourage youth to come together in pro-social activities, to recognize the importance of having a drug-free lifestyle, to build self confidence and to appreciate making good decisions for self and others. Also shared that we are interested in thier thoughts on the progression of this school year.
Student Ideas for Activities	Coffee Amici Game Night Taco Bar Tuesday's (Pizza Thursday's) Meet at Wilson's for Dinner Ice Skating Gaming Club (Compete against other school students) Chill Time Event during the Holidays Basketball Fishing
Other Discussion Items	Thoughts on Current Curriculum: 1) Better than last year. It is more than just taking tests. 2) There is some need for improvement. There are issues in completing offline activities and submitting them. 3) Learning a lot more. 4) It is more work. 5) It is easier to work out problems. 6) More information is presented.
	Strengths and Weaknesses: The students were given several general topics and asked to share their thoughts. In respect to lab atmosphere, all thought things were really good and no issues. In respect to coaches, all thought they were very nice and knowledgeable. They do not always like them encouraging them to stay busy, but understand. One area they did have some concern with was the amount of time the FDA lab is open. They wish they could get more hours in the lab. Maybe an extra hour each day or have some hours on Friday.
