EDUCATION AGENCY RELATIONS GOALS

The Board cooperates with other districts and with other local, state and regional agencies and organizations in the solution of educational problems of common concern. This cooperation extends but is not limited to such areas as research, exchange of information and data, coordination of curriculum, coordination of school calendars and activities and construction of facilities that might be efficiently used on a cooperative basis. To serve a broader area, the Findlay Digital Academy may consider other activities.

In carrying out this policy, the Executive Director/Superintendent may include in his/her recommendations to the Board an evaluation of the desirability and feasibility of cooperation with other agencies in endeavors, which could benefit the Findlay Digital Academy.

RELATIONS WITH OTHER SCHOOLS AND EDUCATIONAL INSTITUTIONS

The Board cooperates with other districts and institutions of higher learning for such purposes as:

1. seeking solutions to educational problems of common concern;
2. offering supporting services of high quality to our students;
3. acquiring federal and state grants and
4. promoting local school system involvement in regional and state decision-making.

This cooperation may extend to research coordination of curriculum, exchange of information and data, which may be effectively used on a cooperative basis, sharing of curricular offerings, cooperative purchasing and the coordination of school calendars and activities.

Before joining in any cooperative effort and to serve the best interests of the students, the Executive Director/Superintendent investigates and suggests cooperative ventures and provides the Board with supportive documentation prior to the time the Board is asked to act.
