Graduation Cohort (year originally scheduled to graduate)

The mission of the Findlay Digital Academy is to meet the needs of each student by providing state approved education through on-line instruction and individualized mentoring. The intent of this annual learning plan is to provide the student with an individualized detailed plan of subject matter to be mastered and tasks to be completed towards graduation and finding employment in the future.

****The provided graduation checklist details the academic content and state testing required for graduation****

List your current career goal.

Research a job description for your career choice . 2. Research a resume for your career choice. .

Student Signature

Parent/Guardian Signature for **initial** Career/Success Plan if the student is **under** 18 years old.

The Student Success plan anticipates that students will matriculate from our program into one of the following Post-secondary paths:

- Enter into a two year program:
- Acquire a business or industry credential
- Enter an apprenticeship program.

We understand that each student is unique and our program will prepare students for one of the above pathways.

Future steps for your plan you should

- Attend a college or career fair near you.** Check with your school counselor about events going on in your area.
- Visit a workplace Do you know anyone that works in your chosen field? You can shadow an expert to observe them doing their daily tasks. This is a great way to see whether you would enjoy that career or occupation.
- Choose your high school classes.** Check with your school counselor about graduation requirements and then review education and training requirements using www.OhioMeansJobs.com for careers you're interested in. Check out programs and electives your school offers and create your course plan.
- Continue your education beyond high school.** Determine what kind of training you need to reach your career goals. You can also visit schools to learn more about what programs they offer and how to apply.
